

Serial No.: 10/822,750  
Art Unit: 2829  
Inventor: Shan-Hung TSAI et al.

Attorney's Docket No.: LEE0032-US  
Page 2

Section 102(e) requires, among other things, that the applied prior art reference be "by another," or different, inventive entity as compared to the inventive entity of the rejected claim(s). As set forth in the attached Declaration Under 37 C.F.R. §132 by inventor An Shih, the invention recited in rejected claim 6 is his own invention, and not that of the other named inventors in the instant application. As such, there is no difference in inventive entity between the subject matter recited in the rejected claim 6 and that which is disclosed by inventor Shih's own U.S. Patent Publication 2004/0189559. Consequently, the §102(e) requirement that the prior art be "by another" is not met in this case. Accordingly, the rejection of claim 6 should be withdrawn.

In view of the foregoing, all of the claims in this case are believed to be in condition for allowance. Should the Examiner have any questions or determine that any further action is desirable to place this application in even better condition for issue, the Examiner is encouraged to telephone Applicants' undersigned representative at the number listed below.
